

## 2019 Young Professionals Mentorship Series

The ACCJ Chubu Young Professionals Forum invites you to attend Mentorship Series. The Mentorship Series consists of four 90-minute table discussions over lunch with senior leaders invited by the ACCJ Chubu Young Professionals Forum. Each leader will give a 30-minute speech and then answer questions for an additional 30 minutes. The remaining 30 minutes will be open discussion among attendees and presenters. By keeping the number of attendees low, each person will have a chance to talk and ask questions.

The Mentorship Series is aimed at young professionals who aspire to become leaders in their companies. These lunches provide the opportunity to hear and learn how the speakers became the successful leaders they are now and what they recommend to advance your career. Participants are nominated through ACCJ member companies and should plan to attend all meetings in the Mentorship Series.
